EDITOR'S NOTE

As each of us departs into a new world, we will always recall our past years at C.C.S. Fears become relinquished. Dreams become realities. Moments become memories. For these reasons we have chosen "Reflections" as the theme of the 1972 *Carthadian.* Collection of the images, which should always remain in your minds, has been our goal.

I would like to thank everyone for his assistance and I hope that everyone reading this book is reminded of an era in his life that deserves recollection.

BOARD OF EDUCATION

This has been a most challenging year for the Board of Education. Educationally, we believe that new ideas should be given a chance—so the following areas were approved for experimentation: team teaching, a pilot program at Natural Bridge, varied reading programs and mini courses.

Probably the most important long range decision made by the Board concerns a future building program.

It is the concern of the Board to have an efficient, well-run school but more important there must be an educationally sound program which tries to meet the needs of the students.

Both presented speeches to the students of our school.

February 4-6 the club held a Winter Weekend for fourteen foreign students and seven American returnees. Students were guests in area homes and the weekend was very successful for all involved.

This year's club has been very active in fund raising with the sale of Tootsie Pops.

"The AFS motto is 'Walk together, talk together, all ye people of the earth, then and only then shall we have peace', and this has been one aspect of my year in the states that I have found out to be very true. Everybody at Carthage especially my American family, the Meisters, has been really great and finding friends has been really easy. As soon as I arrived in the U.S., it was apparent to me that people from all over the world are basically the same, and once we learn to communicate with each other the world will be a great place."
